Prep for Placing Storage Trailer for Trap/Wobble

Steve Moenck brought his skid steer for this project. He scraped the grass off and put down the dense gravel. It was leveled and compacted three times, so we have a good solid base. We will put a 20-foot shipping container on the base and use it for skeet, trap and wobble trap storage. It was a beautiful day today to be outdoors. Big thanks to Steve Moenck, John Phillips, William Cooper, Brad Gehr, Dean Smith, and John Paul for coming out on short notice and helping with the manual labor.
